

Terms of Use

Last updated 22 September 2026

These terms cover your use of motherlandmarkets.com, the Motherland Markets Telegram Mini App, the Academy, our Telegram bot and channel, the partner programme and anything else we publish or run under the Motherland Markets name (together, "the services"). By using the services you agree to these terms. If you do not agree, please do not use them.

Who we are

Motherland Markets is a trading name of Motherland Marketing Ltd, a company registered in England and Wales (company number 17245788, registered office 26 Hafton Road, London, England, SE6 1LP) ("we", "us", "our"). We are an education, media and introducing brand. We are not a broker, an investment firm or a financial adviser, and we are not authorised or regulated by the UK Financial Conduct Authority, the Securities and Exchange Commission of Nigeria, the Securities and Exchange Commission of Ghana or any other financial regulator.

What we do and do not do

We publish educational content about financial markets, run a free academy, a Telegram channel and a Telegram bot, and introduce people who choose to open a live trading account to IC, a third party broker. IC and IC Markets Global are trading names of Raw Trading Ltd, a company registered in Seychelles (registration number 8419879-1) and regulated by the Financial Services Authority of Seychelles under Securities Dealer licence SD018.

If you open an account, your contract is with Raw Trading Ltd under its own Terms & Conditions and disclosure documents, which are published at ic.com and linked from our [Legal page](#). We do not hold or handle your money, we do not open accounts on your behalf, we do not execute trades, we do not see or store your identity documents, and we cannot access your trading account.

Nothing on the services is investment advice, a personal recommendation, a trading signal or an invitation to trade any particular product. Everything we publish is general education. Any trade or market move we discuss is shown to explain a process, not to tell you what to do. Whether you trade, what you trade and how much you risk are your decisions alone. Leveraged products carry a high risk of losing money rapidly. Read the risk warning on our site and IC's [Risk Disclosure Notice](#) before you trade.

Who can use the services

You must be 18 or over. The services are intended for residents of the countries we operate in, currently Ghana and Nigeria. They are not directed at residents of the United Kingdom, the United States or any country where their use would be against local law, and we may decline or remove anyone from any country. You are responsible for checking whether trading leveraged products is legal for you where you live and whether IC accepts clients from your country.

The Telegram bot and channel

Our Telegram bot answers questions about the services, the academy, account opening, funding and the platforms, and points you to the right place at IC. Its answers may be generated with automated assistance, are general information only, can be incomplete or out of date, and are never advice. Where something matters, check it against IC's own documents or ask a person.

Never send the bot, the channel or anyone claiming to act for us your passwords, one-time codes, card details, bank statements or identity documents. We will never ask for them. Account opening and verification happen only on IC's own form and in IC's client portal.

The channel carries market updates, news and education. It is a one-way publication and nothing in it is a trading signal.

The community

If we run a group where members can post, you agree to give accurate information about yourself and not to sell or share trading signals, promote other brokers, funded account schemes or investment products, solicit money from other members, make profit claims or show off returns, post anything unlawful, abusive or misleading, or impersonate us or our team. We moderate and can remove content or members at any time without notice.

Our content and your content

Everything we publish, including text, lessons, images, video, the Motherland Markets name and marks, and the design of the services, belongs to us or our licensors. You may view it and share links to it for personal, non commercial use. You may not copy, resell, repackage, scrape or present it as your own, or use our name or marks without written permission. IC and IC Markets are trade marks of their owner.

If you post content in a group we run or send it to us, you keep ownership but give us a worldwide, royalty free licence to use, reproduce and display it in connection with the services, and you confirm you have the right to post it.

Prices, calendar and market data

Prices, rates, the economic calendar and other market data on the services come from third party sources, may be delayed or indicative, and are not the prices at which IC will execute your orders. Do not rely on them for trading decisions.

Partner programme

If you apply to the partner programme through our form, we will contact you about it. Any partnership is subject to a separate written agreement, and nothing in these terms or in our reply to an enquiry commits either of us to one.

Third party links and services

The services link to IC, Telegram, data providers and other third party sites and apps. We do not control them and are not responsible for their content, availability, terms or how they handle your data. Your use of them is at your own risk and subject to their terms.

Our relationship with IC

We are an introducing partner of IC and receive a fee from the broker based on the trading activity of people we refer. It does not change the pricing you receive from the broker. We do not act for IC, we cannot bind it, and it is not responsible for our content.

No warranties

The services are provided as they are and as available. We do our best to keep them accurate and running but do not promise they will be uninterrupted, error free or suitable for any particular purpose, and we do not promise any trading outcome.

Liability

Nothing in these terms limits liability for fraud, death or personal injury caused by negligence, or anything else the law does not allow us to limit. Subject to that, we are not liable for any trading losses, lost profits, lost data or indirect or consequential loss arising from your use of the services, any content on them, or any account you open with a broker, and our total liability to you for anything else is limited to 100 US dollars.

Ending your use

You can stop using the services at any time. We can suspend or end your access at any time if you break these terms, if we reasonably believe your use puts us, other members or the broker relationship at risk, or if we close the services. Sections that by their nature should survive, including content ownership, liability and governing law, continue to apply.

Changes

We may update these terms from time to time. The date at the top shows the current version. If a change is significant we will flag it on the site or in the channel. Continuing to use the services after a change means you accept it.

Complaints and contact

If something has gone wrong with the services, email clientservices@motherlandmarkets.com with what happened and when. We will acknowledge your complaint within two business days and answer it within fifteen business days. A complaint about your trading account, an order, a deposit or a withdrawal is for IC, under its [Complaints Handling Policy](#). For anything else, email clientservices@motherlandmarkets.com or message our Telegram bot.

Our [Privacy Policy](#) and [Cookie Policy](#) form part of these terms.

Governing law

These terms are governed by the laws of England and Wales and the courts of England and Wales have exclusive jurisdiction, without affecting any rights you have as a consumer under the mandatory laws of the country where you live.
